

The Deputy Director
Central Intelligence Agency

Washington, D. C. 20505

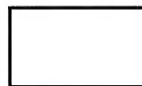

12/1/76

NOTE FOR: Legislative Counsel

George:

I forgot to mention to you that at the NFIB meeting of a couple or three weeks ago General Aaron, backed unanimously by other members of the Board, all strongly urged that we take steps to invite members of the House Appropriations Committee to tour NPIC as one way of building some new understanding in that rather hostile body. This grew out of my informing NFIB at the time that Chairman Inouye who had toured NPIC was impressed by it and had been the first Congressman in history to tour the place.
